

Save the Date – 2012 National Maternal and Child Nutrition Intensive Course

2012 National Maternal and Child Nutrition Intensive Course

July 25-27, 2012

University of Minnesota, Minneapolis Campus

On-site and distance education opportunities available.

Topics include:

- Nutrition, genetic expression and birth defects
- Cue- and behavioral-based lactation and feeding for infants and toddlers
- Maternal depression effects on growth and development
- Parental skills and influences on child feeding and weight status
- Assessment and interpretation of slow growth velocity
- Intervention and monitoring of preterm, low birth weight and failure to thrive infants and toddlers
- Environmental approaches to improving nutrition of MCH populations
- Become an influencer: How to influence the behaviors of others (on-site only)

While these do not have continuing education credits, both are very good lectures and worth listening to from the University of Minnesota School of Public Health. They are both free to anyone!

NEW – AUDIO AND SLIDES NOW AVAILABLE ONLINE!

Jamie Stang, PhD, MPH, RD, LN: *Feeding Young Children: The Good, The Bad and the Picky*, January 11, 2012. [Listen to the presentation and view presentation slides.](#)

David Wallinga, MD, MPA: *Food, Environment, and Maternal Child Health*, November 30, 2011. [Listen to the presentation and view presentation slides.](#)

And sadly, the 2012 Mother Baby Symposium has been cancelled this year. They will be having it again next year, probably either the 2nd to the last, or the last, Thursday and Friday of the month of June.
